North Coast Mothership

Detailed Information Package 2026

The North Coast of British Columbia is the northernmost portion of the Great Bear Rainforest. This trip aboard the *Afterglow* takes you to one of the world's most spectacular coastlines. Within the Great Bear Rainforest lie some of the world's last pristine coastal rainforest: Old-growth hemlock and cedar forests; tidewater estuaries rich with grasses, roots and berries; cascading waterfalls and sparkling streams of spawning salmon. We will explore the Khutzeymateen Grizzly Bear Sanctuary, outer islands, inshore inlets, bays and old-growth forests of the spectacular coast of British Columbia. The surrounding mountains and rainforest offer spectacular scenery and diverse and abundant wildlife. The week aboard the *Afterglow* is designed to give you access to the best that the northern BC Coast has to offer; coastal fiords, rocky islets, sandy beaches, busy sealion haul-outs, marine mammals of various kinds, terrestrial mammals, fishing opportunities, and stunning vistas. The exact itinerary of your trip will be dictated by weather and sea conditions; however, we will use the long summer days to maximize your unique experiences in the northern Great Bear Rainforest. We will use the *Afterglow* as a mode of travel between the spots of special interest exploring these areas on foot, by inflatable and by kayak.

Opportunities will be made each day for 1-3 hours of unguided kayaking. The trip offers a balance of freedom while kayaking within the bounds of safety regulations. Your kayak experiences will take place in protected waters where you can explore spectacular shorelines. While most of the kayaking will be done as a group, we can accommodate individual needs and abilities. We will provide Current Design Breeze single kayaks without rudders. These boats track very well and are extremely comfortable and versatile. All equipment is supplied.

Fitness should be of a general level for this expedition; however, a good level of fitness will always make your trip more enjoyable, so please exercise regularly prior to your trip. Children are welcome to join trips aboard the *Afterglow* but we ask that parents contact us prior to booking to ensure that the voyage they choose is "family focused".

Itinerary

Day 0 – If you're flying or driving to Prince Rupert you must arrive on the day prior to day 1 and spend the night in PR.

Day 1 – L/D

We will board *Afterglow* at the Cow Bay Marina at 8:30am and after the crew has completed the safety orientation, we will head out to begin our adventure.

Days 2 -6 – B/L/D

The itinerary for these days must remain flexible so that we can maximize each day's wildlife viewing opportunities and kayaking explorations. The daily tide schedule varies and will largely dictate our itinerary. We could see a whole array of wildlife at any time including: black and grizzly bears, seals, sea lions, river otters, sea otters, coastal wolves, humpback whales, orca, geese, ducks, and eagles. We will anchor each night in a calm location and continue to enjoy the pleasures of a home cooked meal and the comforts of the *Afterglow*. A visit to the Khutzeymateen Grizzly Bear Sanctuary will be included.

Day 7 – B/L

After lunch we will drop you off at the dock in Prince Rupert. You will be able to book the departing flight for later that day.
